

Audiology To ENT referrals

We work closely with our ENT colleagues and sometimes we might refer you to the ENT department for further assessment and management of your hearing loss/ear condition. We will let your GP know if we have referred you to ENT.

Once ENT have reviewed you, if they feel that hearing aids will be appropriate to manage your hearing loss, they will refer you back to ourselves and we will arrange an appointment for you.

If you have not heard anything back from ENT in the next 3 weeks, please contact us or your GP to chase up the referral.

Large print and other languages

To request this leaflet in other formats or if you require this information to be translated in another language or if you have any further questions about alternative formats, you can contact our Patient Experience Team on 0161 4457451.

If you have a compliment, complaint, concerns or if you have any questions about your appointment, please contact our Patient centre on 0161 445 7451 or email us at bmsg.beacon-enquiries@nhs.net
